Thanks for participating in the ElectionWatch/New York Election Day Monitoring Project. Before you go to a polling site, you should read this short review of the most important things to know:

Please fill out the information above, as soon as you get to your site. You'll then be filling out the general "Election Day Survey" on the reverse of this page if you are voting at your normal poll site on one of the "old" lever machines. You only need to fill out the shaded questions if you encounter a problem like a broken machine, being asked for ID or your name was not in the poll books. Please read and familiarize yourself with the questions before heading to the polls by reading each out loud.

Problems or Questions? In case you have any questions or if you identify problems on Election Day that you believe need immediate attention call our Election Helpline at 212.349.6460. Thanks again for your valuable participation.

Submitting your results: We need your survey results as soon as possible, preferably on Election Day, November 2nd. Submit each of your survey responses only once. There are two ways to submit your form: The best way is to phone in your results to the ElectionWatch hotline at (212) 349 6460. Please retain this survey in your possession (don't throw them out.) You can also fax forms to (212) 349-1366 or mail or drop off forms to: NYPIRG, 9 Murray Street, New York, NY 10007, Att: ElectionWatch.

This survey is designed to find out if voters rights are being violated and to see if voters in different parts of the state are being treated differently from one another. Your participation is key to us determining what is happening to voters across the state. Even if you don't experience any problems, we need you to submit your forms in order to make comparisons with what happened to other voters.

This box is for additional comments continued from the reverse side of the survey. (Please note question number.)
